

Phys. Parameter/Metrics Study	When Initiated	Deliverables /Expected completion		
		Observ. data time series preparation	Database of model results	Paper upon 1st round (*) completion.
1. Magnetic field at geosyn. orbit.	summer 2008	completed	completed	Rastaetter et al., 2010 ; Pulkkinen et al., 2009 ,
2. Magnetopause crossing by geosyn. satellites	summer 2008	completed	expected: 2011	expected: 2012
3. Plasma parameters at geosyn.. orbit	summer 2008	expected: 2011	completed	expected: 2012
4. Ground magnetic perturbations	summer 2008	available	completed	Pulkkinen et al., 2009 ; Pulkkinen et al., 2011
5. Dst Index	summer 2008	available	Final deadline for model results submission: March 31, 2011	Rastaetter et al., 2011, in preparation
6. Heat flux into ionosphere	summer 2010	Discussion is planned for GEM-CEDAR Workshop 2011 Observational data to be provided by Delores Knipp (April 2011)		
7. Auroral oval	fall 2010	Discussion is planned for GEM-CEDAR Workshop 2011
